

## **Chairman's Report to TABS AGM 2024**

A pleasant place to live doesn't just happen. It has to be continually worked upon and properly and regularly maintained. TABS has continued to do just that! It's also pleasing and a great relief to report that the Society's funds have now stabilised. More detailed explanation will be heard in the reports to follow.

The Village Archive continues to expand. Is there anybody out there interested in local history and with computer skills who could help to progress this? Also associated with this, work has started to try and record both the green and built information for Thurnby and Bushby parish onto one interactive map on a webpage.

In the next year, particular attention will be needed to be given to the Harborough District New Local Plan for the District and how this will affect this area. We expect to be busy!

None of the work this year could have happened without our small dedicated committee really working together. So, many thanks to everybody for being such a good team. We would welcome more like-minded people to join us!
